surveys and polls

To access or view feedback through "My Feedback" screen, you must first create an account with Zoomerang. To get a question and answer to create a course a question and answer article.

Original questions and answers are only valid for 30 days after they are created. [View more](#) for more information.

Design theme:

To change the design of your course, visit a new theme in the sidebar.

### Professor Evaluation [View Profile](#)

To give a course the approval of your students, please rate the professor.

1 Please enter the name of your professor:

2 Please rate your level of satisfaction with the following statements:

Very good	Good	Fair	Poor
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Overall rating for all students			
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

0 1 2 3 4 5

## Create a New Poll

### How often will you post your poll?

Choose how often you want to post your poll.

### How long will your poll run?

Choose how long you want your poll to run for.

<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> Other
<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> Other
<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> Other
<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> Other
<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> Other

**Title**  
 The title of your poll. It should be short and to the point.  
 (Optional) You can also add a description to your poll.

**Options**  
 The options for your poll. You can add as many options as you like.  
 You can also add a "None of the above" option.

**Advanced**  
 You can choose to allow multiple answers, or to allow users to vote more than once.  
 You can also choose to allow users to see the results of the poll as they vote.

Please let us know what you think about our web site.

Q1. How did you first learn about SurveyMonkey?

## 1. About LibraryH3lp

- What is LibraryH3lp?
- How the heck do I pronounce that?
- What do you mean by "widget"?
- What is the "LibraryH3lp"?
- Does it cost anything?
- What about support?
- What libraries are using LibraryH3lp?
- I've got a library that I can't use LibraryH3lp!

## 2. Understanding the System

- Users and Groups
- The Catalog
- User Experience and Mobile Technology
- Profile Pages and Social Activity
- Admin Users and Library Events
- What if you don't use LibraryH3lp?
- Widgets
- How It Works
- Technology and Support
- Changing Passwords
- Password Requirements
- If we forget, the system will be heavily vetted.

## 3. About the Widget

## What is LibraryH3lp?

LibraryH3lp is an integrated web interface pattern across specifically for libraries.

It allows multiple libraries to access data from the same user/widget or through the widget as well as the fact patterns on other web services such as data, content, email, through web, etc. While it runs through multiple libraries, only the first one to respond "wins" the data and becomes connected with the pattern.

It's designed to be very customizable friendly. It provides two different data patterns. Both allow patterns to be used through any process number, what is easily stored on the pattern page, rather than a short code/library ID combination.

LibraryH3lp is the same administrative format can handle any data, this is not through to each other as needed. The system provides an administrative interface for various content, management and combined through storage, download, and content. More about features...

Microsoft Word window showing a document with a portrait of a young boy. The interface includes a ribbon with tabs for Font, Layout, and References, and a task pane on the right side.

The image shows a Microsoft Word window with a blue title bar. The ribbon is visible with tabs for Font, Layout, and References. The main area contains a portrait of a young boy with dark hair, smiling. Below the portrait, there is a text area with a green circular icon and a red circular icon. A task pane is open on the right side, showing a list of items with a search icon at the top.

## Remote Access to Your PC or Mac

LogMeIn Free gives you remote control of your PC or Mac from any other computer with an internet connection.

Simply install LogMeIn on your computer, and you're ready to connect to other devices. It's completely log-free and doesn't require any special hardware. Just use the software you want to control. You'll even be able to control devices that don't use all the applications you normally connect to. If you want, you can even control a device that's not even connected to the internet.

- Connect with Windows, Mac, Linux, and more
- No software to install

Introduction

### Web Searching 2: Advanced Tools and Tips

Welcome to the second video lesson in our **Web Searching 2: Advanced Tools and Tips**. The first lesson, **Web Searching 1: Basic Search Tips and Tricks**, will be available to you throughout the course as it is designed for students in your learning. These supplementary videos are not part of the program and are designed to help you with your work. It is my hope to help you overcome obstacles in this course.

We have designed this video course with **flexibility** in mind. Each week we provide videos and other content, including assignments, discussions, online meetings, and live events. The live events are held weekly and free to all students. You may complete your assignments at any time, at your own pace. However, you may find it helpful to have additional options to use the videos to your work progress.

If you need any help, feel free to email us at [instructor@openstax.org](mailto:instructor@openstax.org) or [help@openstax.org](mailto:help@openstax.org). We are here to help you with your work.

Here are some **tips** and **tricks** to help you with your work.

- 1. Use the **Advanced Search** options.
- 2. Use the **Filters** to narrow down your results.
- 3. Use the **Sort** options to organize your results.
- 4. Use the **Save** options to save your results.
- 5. Use the **Print** options to print your results.
- 6. Use the **Share** options to share your results.
- 7. Use the **Download** options to download your results.
- 8. Use the **Upload** options to upload your results.
- 9. Use the **Delete** options to delete your results.
- 10. Use the **Refresh** options to refresh your results.

### September 18 - September 20

## Week 8: Sanborn Maps

Project for Sanborn Maps: Sanborn Maps, 1890-1960

» [Home](#) » [Database Delight Training](#) » [Week 8: Sanborn Maps](#)

### Digital Sanborn Maps (1890-1960)

The Sanborn  
Map

Sanborn fire insurance maps were among of the most detailed maps that include information about structural features, streets, lines, and structural building details. In the incredibly rare chance that someone will see specifically by a Sanborn, however, the insurance map may be used to determine historical street and useful for people looking for the history of their properties, property lines, when structures were built, and general history of the area.

These maps contain information that the insurance companies used to estimate the amount of fire risk. The maps included information such as national street names, house numbers, building use, building age, and construction dates.

Actual fire records for many cities can be found online (see [Sanborn Maps](#) and [Sanborn Maps](#)).
